- Tariff / Software Info *t rF-5u inFo*
- Vehicle Options *UEH iCL oPtS*
- Totals Config *t oTALS Conf*

To enter a heading, press **↵**.

ADJUSTING THE TIME

You do not need to adjust your meter when the clocks go forward or backward, this will happen automatically. The time can be adjusted by up to 3 minutes forward or backward per month.

The time may be adjusted by the following procedure:

1. Place the meter into **FOR HIRE** mode.
2. Press the **+** key once, the display should now read 't inE oPtS'.
3. Press the **↵** key once. The clock time should now be displayed.
4. Hold down the **↵** key. To adjust the time forward 1 - 3 minutes, press the **+** key. To adjust the time backward by 1 - 3 minutes press the **=** key. When the time is correct let go of the **↵** key.
5. Press the **➤** key to return to **FOR HIRE** mode.
