

## INFORMATION MENU

Press the **EXTRAS** button in **FOR HIRE** or **ON** modes.

Press the **EXTRAS** to cycle round the headings:

- Time Options
- User Options
- Tariff / Software Information
- Vehicle Options

To enter a heading, Press **SELECT**.

### ADJUSTING THE TIME

You do not need to adjust your meter when the clocks go forward or backward, this will happen automatically. The time can only be adjusted by up to 3 minutes forward or backward per month.

The time may be adjusted by the following procedure:

1. Place meter into **FOR HIRE** mode.
2. Press the **EXTRAS** key once, the display should now read "TIME OPTS".
3. Press the **SELECT** key once. The clock time should now be displayed.
4. Hold down the **SELECT** key. To adjust the time forward 1 - 3 minutes, press the **EXTRAS** key. To adjust the time backward by 1 - 3 minutes press the **TOTAL** key. When the time is correct, let go of the **SELECT** key.
5. Press the **MODE** key to return to **FOR HIRE** mode.
